AYLSHAM
CLUSTER
TRUST

It takes a Whole Community to Educate a Child

Dyslexia

Supporting Maths Difficulties

Thursday 11th October 2018

9.30 am – 11.45 am

Aylsham High School

Many children who have dyslexia also struggle with maths. This free workshop will offer useful information and ideas to help you support your child at home.

During the workshop we will look at the types of challenges a dyslexic young person might face when doing maths and explore a wide range of practical support tools, resources and apps that you can use at home to support your child.

You will receive some useful resources and handouts.

This workshop has been specifically designed for anyone who has contact with a child with dyslexia of school age e.g. parents/carers, grandparents or other family members and will be delivered by our Dyslexia Outreach Service.

You do not need to have had an official dyslexia diagnosis to attend.

Please book your place by e-mailing our cluster family learning co-ordinator Monica Harding
