

<b>Key Stage 2</b>	<b>Autumn 1</b>	<b>Autumn 2</b>	<b>Spring 1</b>	<b>Spring 2</b>	<b>Summer 1</b>	<b>Summer 2</b>
<b>Science A</b>	<b>Habitats, Adaptation and Food chains</b>	<b>Electricity</b>	<b>States of matter</b>	<b>Plants and Life Cycles</b>	<b>Classification</b>	<b>Slow-acting science</b>
<b>Science B</b>	<b>Forces</b>	<b>Light and Space</b>	<b>Materials</b>	<b>Sound</b>	<b>Body and Lifestyle</b>	<b>Environments and Conservation</b>

Year A = 2022/2023

Year B = 2023/2024

Year A = 2024/2025

Year B = 2025/2026

Every student will study each science unit twice in Key Stage 2. Once in Lower Key Stage 2 and once in Upper Key Stage 2. This is designed to ensure full curriculum coverage, maximum retention of knowledge and skills, as well as allowing pupils to develop these as they move up the school.

<b>Key Stage 1</b>	<b>Autumn 1</b>	<b>Autumn 2</b>	<b>Spring 1</b>	<b>Spring 2</b>	<b>Summer 1</b>	<b>Summer 2</b>
	Humans	Seasonal Changes	Materials	Plants	Animals	Habitats

Every student in Key Stage 1 will study each of these units at least once, but may study them more than once which will help them to build on previous learning to go into greater depth as well as helping ensure retention.

In addition, each year, in line with British Science Week, Aldborough will have an entire week of science-based lessons, involving as many national curriculum subjects as possible, as well as lots of science. The theme for this varies each year, but we will always try to include 'real-life' scientists, live lessons, local examples, visits or visitors plus a science competition.
